

Where Professional Multimeters  
are made **since 1985 ...**

# New 9A Series

Autoranging  
Digital Multimeters

**9A02**  
**9A03**  
**9A04**

- 3½ Digit, 3400/4000 Count LCD with Bargraph
- Large Display (17mm Digit Size)
- Full Annunciators
- Auto Power Off / Sleep Mode
- Fused 20A Range
- Special Functions like Frequency, Diode Test, Audible Continuity, Data Hold, etc.

# Introducing

**9A06**

- 3½ Digit, 2000 Count LCD
- Large Display (20mm Digit Size)
- Full Annunciators
- Auto Power Off / Sleep Mode
- Fused 10A Range
- Special Functions like Temperature, Diode Test, Resistance, Audible Continuity, Data Hold, etc.

# POWER Meters for Management

**96x96 mm Digital Panel Meters**

- Accuracy Class 0.5
- 14.2mm / 20mm LED Super-Bright Display

Volt, Amp, Watt, Var,  
Powerfactor & Frequency Meters

# Power Line Transducers

- Reliability tested at IDEMI & ERTL, Mumbai
- Load Independent Active Transducers
- Din Rail cum Wall Mounting Type

Volt, Amp, Watt, Var, Pf, Frequency, DC Isolation & Ambient Temperature Transducers are ideal for interface with DCS, SCADA, RTU for Central Monitoring Systems, Power Management and with PLC for Automation

# 240° Long Scale Panel Meters

Volt, Amp, Watt, Var, Powerfactor & Frequency Meters for 1Phase & 3Phase Balanced & Unbalanced Networks
