Sub : Your Performance Evaluation through Rating system

Dear Sir,

With Reference to subject matter, we have done vendor rating of all active suppliers having business transaction with PCL. The Vendor rating is used to analyze the vendor's performance at the company level, taking into account their performance at all the purchase locations. Henceforth vendor rating will be carried out at regular Intervals. Each Vendor is rated based on the comprehensive analysis done at different rating parameters defined to rate the vendor performance related to "delivery" , "Price" , "Quality" , and "Services". The Maximum Rating points that are assigned to the vendors performance are 100.

You Have Scored 85 % which falls under A Category Vendors
for transactions made during the period 01.01.2009 to 30.06.2009

- A - Excellent Performance Category.
- B - Adequate but need to improve Category.
- C - Inadequate and need to be warn Category.

This is for your Information and to take corrective action to improve your score for future supply which will help you in upgrading your category .

Thanking you,

Yours truly,

For Prism Cement Ltd.
